

CORT Business Services UK Limited - UK Tax Strategy Statement

Introduction

CORT Business Services UK Limited (t/as Roomservice by CORT) is the UK's leading furniture rental provider, specializing in designing and furnishing domestic property interiors.

This tax strategy is applicable to CORT Business Services UK Limited. Publication of this strategy is regarded as satisfying our statutory obligation under Para 22 (2), Schedule 19, Finance Act 2016 for the financial year ending 31 December 2021.

Approach to tax risk management and governance

The Board has ultimate responsibility for tax risk management and governance, supported by the Chief Financial Officer. Operational responsibility for implementation of the strategy, tax compliance, risk management and general tax matters falls to the UK Managing Director.

We are committed to paying the correct amount of tax at the correct time in accordance with all relevant laws and regulations, both in letter and in spirit. We aim to maintain compliance via a system of internal governance using appropriately qualified and experienced staff. Where applicable tax advice is sought from external advisors in respect of material transactions or when staff do not have the necessary expertise or skills required in a particular area.

Attitude toward tax planning

We will only engage in tax planning that supports the business, reflects genuine commercial activity and complies with applicable laws and regulations. We will not engage in artificial tax arrangements or aggressive tax planning but may seek to benefit from legislative reliefs or incentives in the spirit of the law.

Transactions between group companies are conducted on an arms-length basis in

accordance with appropriate transfer pricing rules and the relevant guidance issued by the Organisation for Economic Co-operation and Development (OECD).

Approach towards dealings with HMRC

We will aim to maintain an open, honest and transparent relationship with HMRC and interact in a professional, courteous and timely manner. If we were to identify an error we would seek to voluntarily disclose it as soon as reasonably practical, quantify the effect of the error and pay the additional tax and any interest due as a result.

If our interpretation of the correct tax treatment differs from that of the tax authorities we will typically ask for independent advice and work with the tax authorities to achieve resolution in an open and constructive manner.
